

## TANGO | MUSIC, RHYTHM, PASSION

What would we be without passion? This question triggered the development of the TANGO Collection. Several years have passed since then, but obviously, the question has not lost any of its validity among DEDON lovers.

All of the pieces have the distinctive herringbone weave and the exciting silhouette in common. TANGO is flowing shapes and sensual lightness. The dynamically curved back of the chairs and armchairs merge organically with the seats and armrests; the shapes fit perfectly to your body, caressing it.

**Colors**      teak
